

An excerpt from "A Message from Our Benefactor"

I consider myself a blessed man for having received support and encouragement from the society. As a token of my gratitude to the society, I am founding The Circle Foundation, hoping to share what I have been given. I hope the Foundation make the positive impact on the society through nurturing the donation culture and tackling various social issues. The Circle Foundation will work with various stakeholders to make this society a better place. As a founder of The Circle Foundation, I wish the Foundation become an essential asset of this society to solve various social issues. Please join us on this journey of the Foundation.

Thank you!

Dr. Ahn
안철수

Opportunity for All

Youth Mentoring Program
Tricycle

Tricycle is a youth mentoring program that promotes fair education opportunity in our society. Retired educators and college students participate in the program as mentors and provide comprehensive mentoring support, advice, academic and career guidance. They also offer special seminars for parents and guardians.

The three wheels of the tricycle represent *youth*, who are our future; *the volunteers*, who provide academic and career guidance; and *The Circle Foundation and its business partners*, who support the program.

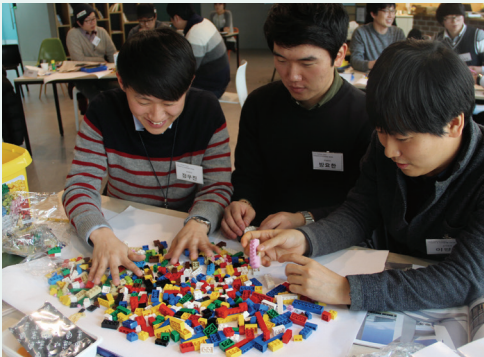

The Circle Foundation is here to provide a place of collaboration to help you find opportunities and pursue your dreams.

Startup Support Project
Local Challenge Project

We discover creative and innovative companies that are committed to solving problems or current issues in our community through their businesses, and then support their sustainable growth and expansion.

The project consists of the programs to develop the business plans and competencies and provide the sales channel. Any startup with a business model to enhance the quality of life in the community and to help the local economy is encouraged to participate.

Promoting a Culture of Giving

Research Project

The project was designed to establish the identity of our foundation and widen public understanding of our mission and vision.

We will share our vision of the better society with general public, and work with all stakeholders for the endeavor to make the vision a reality.

- 2016 Research Reports
 - National Survey on Unequal Opportunity - Experience and perception of the people about the unequal opportunity in Korea
- 2015 Research Reports
 - Social Innovation Keywords 100 to read the changes in the Korean society - Basic research to establish the foundation's next vision
 - Diagnosis on our society from the unequal opportunity perspective - Development of the Equal Opportunity Index
- National Survey on Unequal Opportunity
 - Research on baby boomer's desires and ways to support them in a new lifecycle perspective - Focusing on middle-aged office workers

You can download the research results from the archive section of our website.

Sharing is a rewarding and happy process. We will encourage more people to participate in sharing activities in their own particular ways.

Space Sharing Project
Open Community Lab
www.opencommunitylab.or.kr

The Circle Foundation offers spaces (Hall for All, Room of Change, and Room for Sharing) to people who share our mission and dreams.

Non-profit groups, public interest advocates, small groups, and project teams may use these spaces. By offering these spaces, we aim to create a virtuous cycle of sharing and encourage the sharing movement.

Hall for All
- seating capacity 80 people

Room of Change
- a lecture hall with a seating capacity of 30
